Colonel Brendan P. Doherty
Commissioner, Department of Public Safety
Superintendent, Rhode Island State Police

John E. Chartier, EFO
State Fire Marshal
Division of the State Fire Marshal

Rhode Island Fireworks Definitions

Legal Fireworks are:

* **3.1.1 Ground and Hand-held Sparkling Devices (“Sparklers”)** These devices are ground-based or hand-held devices that produce a shower of white, gold, or colored sparks as their primary pyrotechnic effect. Additional effects may include a colored flame, an audible crackling effect, an audible whistle effect, and smoke.

These devices do not rise into the air, do not fire inserts or projectiles into the air, and do not explode or produce a report (a mild audible crackling-type effect is not considered to be a report.) Ground-based or hand-held devices that produce a cloud of smoke as their sole pyrotechnic effect are also included in this category.

Types of devices in this category include:

* **3.1.1.1 Cylindrical Fountain** Cylindrical tube containing not more than 75 g of pyrotechnic composition. Upon ignition, a shower of colored sparks, and sometimes a whistling effect or smoke, is produced. This device may be provided with a spike for insertion into the ground (Spike Fountain), a wood or plastic base for placing on the ground (Base Fountain), or a wood or cardboard handle to be hand held (Handle Fountain). When more than 1 tube is mounted on a common base, total pyrotechnic composition may not exceed 200 g. (See section 3.5 for exceptions.)

* **3.1.1.2 Cone Fountain** Cardboard or heavy paper cone containing not more than 50 g of pyrotechnic composition. The effect is the same as that of a cylindrical fountain. When more than 1 cone is mounted on a common base, total pyrotechnic composition may not exceed 200 g. (See section 3.5 for exceptions.)

* **3.1.1.3 Illuminating Torch** Cylindrical tube containing not more than 100 g of pyrotechnic composition that produces a colored flame upon ignition. May be spike, base, or hand held. When more than 1 tube is mounted on a common base, total pyrotechnic composition may not exceed 200 g. (See section 3.5 for exceptions.)

* **3.1.1.4 Wheel** Pyrotechnic device intended to be attached to a post or tree by means of a nail or string. May have one or more drivers, each of which may contain not more than 60 g of pyrotechnic composition. No wheel may contain more than 200 g total pyrotechnic composition. Upon ignition, the wheel revolves, producing a shower of color and sparks and, sometimes, a whistling effect.

* **3.1.1.5 Ground Spinner** Small device containing not more than 20 g of pyrotechnic composition, venting out an orifice usually on the side of the tube. Similar in operation to a wheel but intended to be placed flat on the ground and ignited. A shower of sparks and color is produced by the rapidly spinning device.

* **3.1.1.6 Flitter Sparkler** Narrow paper tube attached to a stick or wire and filled with not more than 5 g of pyrotechnic composition that produces color and sparks upon ignition. The paper at one end of the tube is ignited to make the device function.

* **3.1.1.7 Toy Smoke Device** Small plastic or paper item containing not more than 100g of pyrotechnic composition that, upon ignition, produces white or colored smoke as the primary effect. **(For devices containing less than 5 g of pyrotechnic composition, see Section 3.2, Novelties.)** Toy smoke devices, when complying with the provisions of this section, are classed as Fireworks, 1.4G unless

classed as 1.4S or not regulated as an explosive on the basis of examination and testing as specified in Title 49 CFR, § 173.56.

* **3.1.1.8 Wire Sparkler/Dipped Stick** These devices consist of a metal wire or wood dowel that has been coated with pyrotechnic composition. Upon ignition of the tip of the device, a shower of sparks is produced. Sparklers may contain up to 100 g of **pyrotechnic** composition per ite

ANY FIRECRACKERS, ROCKETS, MORTARS, OR ANY OTHER DEVICES THAT LAUNCH A PROJECTILE AND/OR MAKE A “BANG”/DETONATION/REPORT ARE NOT LEGAL UNDER RIGL 11-13-1.
